## 4 MESSAGES

### 4.1 INDUSTRY PERSON

Dear Team Avalokan,  
Following is my Views.

Indian Pharmaceutical industry is at a very important stage. Today we are are looked upon by the world as “pharmacy of the world”. It is said that every third pill made on earth is supplied from India and from India every third pill made is from Gujarat, this will explain you how our state and India as a whole is important for not only our country but also for the entire world. But it is famously said that with more power comes more responsibility and that is exactly what we have to do in times to come, we have to work relentlessly and with precision. Make innovation centre of your focus and build an ecosystem of excellence around it. It is the best time in the history to be part of pharmaceutical industry and scope is endless in times to come and I congratulate the SIPS family for laying that foundation stone for students by conduction various lectures, activities, industrial visits etc. for them to grow. Wishing SIPS and its students all the very best.

### 4.2 PARENT

Respected Faculty members, Parents and Students,

It's my privilege to be able to share my views about our experience in this college. Like any other concerned parents, before admission, we too were very nervous about the college atmosphere and our daughter's academic life.

We got her admission in SIPS through ACPC and had got a good review of this college from one of our acquaintances. Before confirming the admission, we visited the college and the chief attraction was its vast campus ringed by greenery. We were also impressed by its Laboratories fully ventilated, airy, spacious and loaded with all the required equipments & machineries (Each machinery is provided with its own Standard Operating Procedure (SOPs). There is a botanical garden, a well maintained library with almost all the books available and a canteen too. After the completion of one and a half year's journey in this institute, we are now satisfied on our decision to select the best college for our daughter. Her results are

rewarding and we are contented with her improvement. Credit goes to her mentors who are always there to guide and motivate her.

The most creditable part is that the College is NBA accredited and it is very much clear about its vision and mission. Along with the academics, the college also focuses on the overall development of its students by arranging various co curricular activities like Tree plantation, Debate, Quiz, Rangoli, Garba, Pharma Model, Health check up camps, and the list is long...

My heartfelt gratitude to all the faculty members of SIPS for their continual support and efforts in helping our children reach their goals. I hope this Institute continues to impart knowledge as its name represents – SARASWATI (Goddess of Knowledge).

### 4.3 ALUMNI

It is my immense pleasure to write about my alumni institute “Saraswati Institute of Pharmaceutical Sciences” (SIPS). I am really glad to have an opportunity to share a message in “AVALOKAN” E-newsletter for my college “SIPS” as alumni. SIPS play a vital role for development of my personal as well as professional career. SIPS is the place where I learn lots of new things at my younger age, as all knows that, this is the age when you have time to grow up yourself for betterment of future and SIPS gives me a strong platform and opportunity to develop myself in all fields. Whatever I have today as a professional career as well as personal development is only because of my four years learning and hard work staff of institution during my Bachelor of Pharmacy (from 2006-2010).

As our batch was first batch of college and that’s first year for institute as well but, we have all facilities as a pharmaceutical institute with all instruments along with highly qualified staff to teach us related to “Pharmacy field”. Although, college is in growing face we have all facilities at that time along with instrumentation in all laboratories for improving practical knowledge, which is a really an important part during college phase for each and every student.

Apart from that SIPS is always giving their best for extracurricular activities like. Annual day celebration, Sports week, Poster presentation, Picnics, Industrial visit, Navaratri function etc. I want to personally thank you Dr. Ankit Chaudhary Sir for giving me an opportunity to represent my thoughts and myself for AVALOKAN of July- Dec 2022.

I do my best for reunion our colleagues and also institute invite us always as a part of alumni of college that is really a great feeling still we are in touch as a friends in all function of SIPS. We feel and miss our golden college days when spend times with old friends in “COLLEGE CAMPUS” with same Garden, Canteen and Sports Ground the places which always miss by each and every person in their professional live and it gives great feeling when we meet again at same places as an alumnus.
