Report

A Guest lecture on “A Novel Approach for Medicinal Plant Cultivation” was arranged by Saraswati Institute of Pharmaceutical Sciences on 04th August 2021.

Very interesting Lecture was given by Mr. Nitin Padriya, Assistant Professor, Institute of Advanced Research at Gandhinagar. He explained very well about the cultivation of medicinal plants with examples of Ashwagandha, Kalmegh and Satavari. He enlightened the importance of original plants that role as medicine in India with research data of all over world.

He motivated students to be entrepreneur as medicinal cultivator by giving examples through case studies and profit margins data.

He encouraged students for “Shodh Yatra” to find out original Indian herbs and medicines for developing further research in Ayurveda.

Students got advanced knowledge of Pharmacognosy rearch with lots of joy. It was learning with joy.

It was very informative seminar for students as well as researchers.
