1. ABOUT INSTITUTE

The institute was established in 2006 under the auspices of Shree Saraswati Education Sansthan. The institute is situated in a green environment at Dhanap, 10 kms away from Gandhinagar, a capital city of Gujarat. SIPS aspires to be a premier pharmacy institute, providing holistic academic standards which are relevant to the needs of the industry and the nation without compromising on ethical and moral standards. Saraswati Institute of Pharmaceutical Sciences is approved by All India Council for Technical Education (AICTE), New Delhi; Pharmacy Council of India, New Delhi and affiliated to the Gujarat Technological University, Ahmedabad. It is accredited by NBA – National Board of Accreditation (B.Pharm, 2021-2024), New Delhi.

2. VISION MISSION

VISION: Our institute is committed to providing quality education and training by creative faculty resources with excellent infrastructure facilities.

MISSION: To become a premier center of academic and technological excellence in pharmaceutical education and research.

3. MESSAGES

3.1 INDUSTRY PERSON

I am delighted to know that SIPS is publishing “AVALOKAN”, E-Newsletter as usual this year in 2023. I congratulate SIPS’ editorial team for publishing this informative student magazine. Dear Students, as you are graduating this year, you are entering into a new world and new stage of life. But, here I must say that learning is not a process limited to school and college only, nor does it end with the conclusion of one’s college career. It is indeed a lifelong process. There is no second opinion about the fact that pharma is an ever-growing industry. Gujarat has become a hub for the Pharmaceutical Industry. The Pharmaceutical industry in Gujarat ranks Number One in India. Today, India is the largest producer of vaccines worldwide, accounting for more than 60% of the total vaccines by volume, as of 2021 end. A naturally progressive industry, pharma has drawn together some great ideas and innovations. India being the 3rd largest pharmaceuticals industry in the world by volume offers a positive growth trajectory in the coming years.

My friend, the pharmaceutical sector has been a key player in Indian history, whether it be the “Sanjeevani Booti” which is mentioned in the Ramayana which takes us back to the “Ayurveda Era”, or whether it be “Covishield” and “Covaxin”, the Indian manufactured vaccines for the covid-19 pandemic. Indians are surely reaching new heights in terms of good health and wealth.

As your profession is linked to save One’s life, I recall here a statement of Mr. Nelson Mandela. “Health cannot be a question of income; it is a Fundamental Human Right.”

Dear students, it is my message to you all that always Be the people of fine character who live by their values. Be honest and committed to truthfulness in thoughts, acts and deeds. True character thus encompasses the capacity for Self-discipline and value of Ethics. Always remember to uphold the dignity of profession by providing high-end quality medicines.

My dear students, you are the Tomorrow of India and World !!

My best wishes to the teachers and students of SIPS for their contribution in moulding the future of Pharmaceutical Sciences.

Dr. Tanmay Patel
Managing Director
SPENSUS Pharmaceuticals

3.2 PARENT

I am very much happy that my daughter KHUSHI JANI is doing her DOCTRATE IN PHARMACY from SARASWATI INSTITUTE OF PHARMACEUTICAL SCIENCES. Every Parent desires for the grooming of one's child and this college has proven this in all aspects-such as education, sense of discipline, high moral and ethical values. I value the efforts of the professors and Principal in training my child meticulously before they step out in the competitive world out there. All faculties are extremely helpful. The continuous attendance monitoring of the students is a gleaming example of their dedication.

It is good to see that the college gives equal priorities for both academics and extracurricular activities. Other activities like Seminars, competitions, sports etc, are conducted satisfactorily.

I express a feeling of pride and sincere gratitude at the fact that that my daughter is a part of this progressive institution. I wish good luck and success to the institution.

3.3 ALUMNI

It gives me immense pleasure to write for “AVALOKAN”, E-Newsletter of Saraswati Institute of Pharmaceutical Sciences where I spent almost two years of my life not only to gain the knowledge that would prove to be a stepping stone of my career path but also enjoyed the college life along with the great learning from the faculty members. All the faculty members of SIPS under the guidance of whom I was able to complete my masters with flying colors were just more than a teacher to me. SIPS is a perfect P-School that every aspiring student wish to study in, who dreams to make a successful career in the field of Pharmaceutical Sciences. The Robust teaching techniques by the experienced and well trained faculty members have helped me and my buddy batch mates to reach their goal where they aimed to be once upon a time. I am pretty sure about this as I am able to see them all well settled in their lives.

Apart from routine study, the institute provides perfect platform for the overall development of the student by enriching their soft skills which is of utmost importance in facing today's professional world. I still can't forget those days when I used to participate in the extracurricular and sport activities which provided a refreshment break from routine study schedules. National and International Conferences and Seminars which were organized by the institute really boosted up my knowledge and confidence to be at par with the constantly updating Pharma field. The governing management of the institute definitely understands the need of the pharma curriculum since its inception and hence regularly plans for visit to Pharmaceutical Industries to relate the theoretical principles with practical applications. Overall it feels great being an alumnus of a premier institute like SIPS and I have thoroughly enjoyed my academic life in the campus of SIPS. At the end, I would like to convey my best wishes to all the students who are connected with SIPS for their upcoming exams and projects, and the ones who are engaged in starting their career in this noble profession of Pharmacy.
